## Denso Products

In 1949, Nippondenso Company separated itself from Toyota Motor Company.

In 1953, Denso developed technical cooperation with Robert Bosch Corporation.

In 1961, Denso was awarded the Deming Prize; the most prestigious award for quality control.

The following next 49 years Denso committed itself to be: “A leading global supplier of advanced technological systems and components.”

Domestically, Denso products are standard equipment on **John Deere** and **Cummins** industrial engines.

In the automotive market, they are the world leader in supplying starters, alternators, fuel systems and air conditioning

products to all the major OEMs.

Continuing in their desire to offer advanced systems to the marketplace; Denso offers a single alternator conversion for the MY 2003 and beyond F-Series Super Duty (F-250/350/450/550) trucks equipped with the 6.0L Diesel engine with dual alternators.

### Benefits to you:

- World leading products that offer one to three year warranties.
- Compact products that are less weight; making it easier to install on a piece of equipment or vehicle.
- Local supplier that offers these products at competitive prices.

## Zero Percent Financing

In our July newsletter, we introduced our newest product line: Ingersoll Rand Power products.

In an effort to assist you in purchasing their equipment, they are offering special financ-

ing until the end of September.

They are offering the following rates:

- 0% for 12 months
- 2.9% for 18 months
- 3.9% for 24 months

- 5.9% for 36 months
- 6.4% for 48 months
- 6.9% for 60 months

Please note that you have to be eligible to receive this offer.
